PROFILE

As a proven hotel operator and manager Adil Al-Rajaibi is one of the few people able to practically demonstrate and implement those skills within a challenging market. At the same time he implements the required strategies that are essential to the profitable operations of a hotel.

Adil has been instrumental and pivotal in the establishment and growth of Midan Muscat International Services LLC (MMIS) as well as the development and maintenance of business standards within Midan Hotel Suites.

Throughout his time in the hospitality industry Adil has been promoted through a number of positions and continues to maintain an interest and understanding of each of those positions. He still displays a common-sense understanding of the hospitality business - that the customer is always right, and that as a business our income has to exceed our expenses. Simple logic that strikes at the core of all business.
